

HILTON PARK GOLF CLUB

Food & Drinks Service

There will be a staged reopening of the clubhouse to allow the serving of food and drinks starting on Wednesday 15th July. Laura and Kenny are really looking forward to welcoming you back after the successful BBQ on Saturday and Sunday. Please note that on Wednesday 15th July there will only be a drinks service, food service will start on Thursday 16th July.

The clubhouse is only permitted to be open during bar opening hours and other than the hospitality areas and the toilets all other areas of the clubhouse will remain closed. This means that the locker rooms can only be entered for access to the toilets and emergency exits. Contact with the office staff will continue to be by telephone.

The rules on hospitality provision and indoor gatherings are changing on an almost daily basis and we will increase the use of the clubhouse as soon as possible.

In line with the requirements placed upon all hospitality businesses for reopening, there will be some changes to operations in the clubhouse. We have also been guided by Local Government officials to ensure that we comply with all Co-Vid and Health & Safety regulations. Please follow any guidance given by our staff.

Wherever possible a one way system will be in operation and members are asked to follow the signs.

There will be reduced tables in the Main and Allander Lounges to comply with social distancing rules.

Bar staff will monitor the numbers in the clubhouse and will restrict entry if it becomes too full.

The Spikes bar will remain closed and will be used as a PPE changing and rest area for our staff.

Both food and drink should be ordered at the bar and members should then go to a table, which will be allocated by the bar staff, in the Main or Allander lounges where the food and drinks order will be served. No standing or waiting at the bar will be permitted.

Initially a reduced menu will be in place and this will be reviewed going forward.

Payment will be by card (either membership card number or contactless)

Menus and fixed condiment bottles will be removed from each table. Disposable condiment sachets will be provided with your food on request.

Additional cleaning and sanitation procedures will be in place throughout

All customers will have to provide information to the bar staff for contact tracing purposes.

Initially the bar and catering hours will be as follows and these will be revised in the next few weeks with changes published on our website.
